

A Message from the President

July 27, 2010

Dear Valued Customers & Suppliers,

Over the past 25 years CSL Silicones Inc. has earned the reputation of producing high quality silicone products, which include our sealants, adhesives, compounds, polymers and Si-COAT® branded coatings. Our success and longevity is in no small part a result of your ongoing loyalty to our company. We would like to extend our gratitude to all our customers and suppliers.

Since 2008, the world has seen an uncertain economy that has been difficult to navigate. CSL has, however, emerged from this challenging period stronger and more determined than ever.

For many years our company has been focusing on establishing and growing its coatings business. With sufficient and increasing momentum now behind this business, CSL is returning attention back to its roots with a re-launch and refresh of its sealants and adhesives business.

In concert with this initiative, we will be gradually adding more staff to service and support the sealants and adhesives division and its customers. Other changes you will notice over time are new packaging designs and an improved website.

To communicate our ambitions of "Onwards & Upwards", the branding of CSL Silicones Inc. and all its non-coatings products is being refreshed with the new logo above. The emblem points to our direction of the future, and reflects our underlying value of environmental responsibility, which we strive to imbue across our business. The logo for our Si-COAT coating products remains unchanged.

Again, we greatly appreciate the custom and trade we have enjoyed from all our business partners over the past many years, and we look forward to fulfilling and serving your silicone needs for many years to come.

Sincerely,

Faisal HUDA
President & CEO
